GREAT HISTORY IN STONE

Specialists rank the natural stone of Iran as one of the highest quality. Many grades and tones are offered to diligent architects, creative designers, admirers of luxury and other connoisseurs of natural materials.

Elegance and beauty of a stone is reasonably evaluated in money equivalent.

Persia once was a center of one of the greatest empires in history stretched from Egypt to the river of Indus. It included all other former empires of the ancient time such as the empire of egyptians, babylonians, assyrians and hittites.

Since the ancient time, approximately 1200 BC, the Persian Empire, present Iran, mastered processing and trade of marble, granite and other rocks which you can find in our assortment.
